MW
Matte White

Alera's standard finish is powder coat Matte White (MW) unless otherwise noted. The above colors represent the optional powder coat colors available. To order, simply replace the MW in the catalog nomenclature with the RAL number.

Example: NPLS-20-2T8-CM48-WCB-EU-RAL3013

In addition, Alera has access to over 100 other powder coat finishes. To review other finishes, please contact your Alera Lighting representative. The RAL number would be inserted as shown above. RAL colors are subject to set up charges.

Alera's ZET Metallic Silver (ZT) is the same finish as Prescolite's ZET offering.

Note: Color samples depicted are process printing equivalents of actual colors. Therefore, slight color variations may occur.
